CHIPPING AWAY AT THE RFID SYSTEM

Bob Crossley, Board President

During the week of April 4 a terrific group of people teamed up to take another step toward enhancing our security. The team chipped in, to chip away at the needed task of placing a chip on our vehicles (how could I resist). This was orchestrated and performed by Directors Peggy Dern and Dayton LaGrua and Chairman Jim Copeland with an ensemble of General Manager Kimberly Pollard's staff and many, many enthusiastic volunteers. We'll all benefit from their effort. Thank you all, bravo.

MANAGEMENT REPORT – MARCH 2016

Edward Olson, Assistant General Manager

In Phases 1 through 3 Concrete Hazard Solutions completed the grinding of all of the trip hazards. The areas which could not be ground down and need to be removed and replaced staff obtained proposals which will be in the February's board packet. The concrete sidewalk remove and replace was completed by MGB in March. The concrete depth averaged 3.5" to 4" which was a little more than the contractor had figured although no additional cost was billed to the association. The specifications for concrete sidewalks need to be reviewed and revised by the MC to alleviate excessive costs for overbuilding a common sidewalk walkway.

Thompson Air Condition is moving right along and have completed 40 units of the 72 units in Phase #7. To date Thompson completed units 701 to 711. Thompson AC is now in Phase #8.

PPM Construction is working in Phase #4 doing wood repairs on Units 404, 407 and 408. Notices have been sent out to the next section of the Phase #4 Units 409, 410 and 411 with the wood repair work to start February 8th through March 11th. Phase #4 status is listed as follows;

- Phase 4 wood and stucco repairs at buildings 401 thru 411 are 100% completed.
- We are 98% complete on building 412 wood and stucco repairs.
- We are 95% complete on building 413 wood and stucco repairs.
- Phase 4 garage work is 100% completed: San Diego, Benito and Lassen.

Continued on page 5

MANAGEMENT REPORT – MARCH 2016

Continued from page 4

- Building 408 breezeway repair is 100% completed.
- Phase 9 work was started on Monday 3/14/16, building 901.
- Phase 9 prep work and markup started 3/14/16 building 902.

Premax painting is following behind the repair work touching up the paint on buildings 401, 402, 403, 405 and 406. Also in Phase #4 the gutters and roof diverters were looked at by Rainstopper's who will be providing a proposal per the scope provided. Painting is now complete on buildings 401, thru 409. Notices to paint will be distributed for buildings 410 thru 413. Gutters, diverters and downspouts are scheduled for installation this week starting at building 401.

There was a high spot in the asphalt by the Merced garages and during the last storm event some of the runoff puddled in one of the garages. JWC inspected the area, located the issue and contacted the asphalt contractor to make the necessary grind and patch. The contractor will be scheduling the work sometime in February. This repair has been completed. JWC is going to perform some asphalt boring to test samples in the next phase.

ORANGE COUNTY FIRE PROTECTION: Orange county fire protection did their annual fire testing and maintenance requirements per the California code of regulations, Title 19-901 to 906 to the automatic sprinkler system in Phase #2. The total cost of the repairs comes to \$922.08.

RODENTS: This past month the rodents have become very active and our current exterminator had trouble keeping up with their service and the work load of Huntington Landmark. Several new contractors have been contacted and staff will begin testing their service and professionalism to add to our exterminator contractor list.

PHASE #9 POST TENSION SLABS: While the contractor was working on Phase #9 the contractor's manager found some post tension cable collars that are almost completely rusted

out. Staff was able to set up a meeting with a structural engineer for an inspection and a hopefully a repair methodology.

Financial Statement Summary of Huntington Landmark Homeowners Association - February 2016

Financial statement will be in June's issue

UNDERSTANDING COMMUNITY LIVING

Walt White, Board of Directors

Landmark's new legal counsel and reserve analyst recently conducted a very informative webinar about community association living. There were two main concepts presented that provide a plan for improving living in a community association. They are Shared Obligations and Balanced Responsibilities.

Shared Obligations – Owners and Residents

Living in a community association (common interest development) offers many advantages to its owners and residents – recreational facilities, social programs, property maintenance, controlled access, etc. However, with the benefits of community living come shared obligations that will enrich a community and provide for its continual growth and improvement:

- Shared OWNERSHIP (home and common areas)
- Shared RESPONSIBILITY (observe rules, good neighbor)
- Shared CONTROL (constructive suggestions, volunteer services)
- Shared COST (regular assessments)

Owners and residents should be aware that:

- The community serves the needs of the majority (not the vocal minority).

UNDERSTANDING COMMUNITY LIVING

Continued from page 5

- Not everyone is going to get their way; there will always be some level of dissent.
- Living in a community association may not be for everyone.

Balanced Responsibilities – Board of Directors

Since it is impractical for all owners to manage the affairs of a community association, they elect representatives (Board of Directors) to carry out those responsibilities. The Board establishes policies and engages a management company to administer day-to-day operations. The Board must be concerned with balancing the four major “worlds” of community association management:

- CORPORATION (laws, governing documents, bylaws, rules, elections)
- BUSINESS (cash flow, budgets, financial controls, savings for future, insurance)
- REAL ESTATE PROJECT (property values, proper care and maintenance)
- COMMUNITY (neighbors, friends, and families)

These “worlds” often represent competing interests and life styles! The Board must use discretion in achieving the proper balance of those responsibilities. Emphasis on the aspects of one “world” to the exclusion of the others must be avoided! This is the challenge the Board must deal with on a continuing basis.

Summary

It is up to us as owners and residents of Landmark to focus on our Shared Obligations. We must also understand our Board’s duty of Balanced Responsibilities. By focusing on these two concepts and working hard to see we are both an understanding and a sharing community, Landmark will continue to be an outstanding community association. We already know of

multiple examples of sharing obligations and understanding others.

Landmark is not your community or my community; it is our community!

COMMUNITY Q & A

Diane Yrisarri, Lifestyle Director

Since the Library Fashion Show took place on the 1st Thursday of April, other schedule events were held a week later than normal. The Community Q&A that took place on April 21, missed the deadline of May’s newsletter to be printed. It has been e-blasted out and copies are available at the Management and Recreation offices. We will be current for the June newsletter with May’s Q&A.

Please note: The Community Q&A has changed to the 2nd Thursday of each month. Mark your calendars.

COMMUNITY Q & A, MARCH 17, 2016, FOLLOW UP ANSWERS.

Q. Rick Hen, 207A - Has the Board taken and consideration as the lighting in the future? Switching over to LED lighting?

Follow up: Staff met the homeowner who asked if the BOD ever considered LED lighting and discussed that LED lighting comes with a cost and the cost vs rate of return has been evaluated in the past but the cost outweighed the rate of return. Management and the BOD will continue to look at options, discounts and even rebates as they become available.

ANIMAL SHELTER DONATIONS

Diane Yrisarri, Lifestyle Director

Animal shelters are usually overcrowded and underfunded. Many shelters would welcome donations of blankets, flat sheets, towels, washcloths, small rugs, pet beds, collars, leashes, harnesses, toys, food, treats, kitty litter, kitty boxes, dog crates, water/food bowls, carriers, etc. Denise Norman, Huntington Landmark resident has requested if you have donations, she will pick up any items from you that you’d like to donate and take them to our local shelters. Thank you Denise!

Please call her at 714-884-0862 or email: denise.norman@sbcglobal.net to make arrangements or if you have questions.

DISASTER PREPAREDNESS COMMITTEE

Linda Rosenthal

If disaster hits, are you prepared to care for your pet? If you have to evacuate, don't leave your pet behind, be sure you have a crate or carrier to keep your friend confined and safe.

Here are some ideas to keep in mind BEFORE an emergency. Microchip your pet. That way, if you are separated, you can be eventually reunited. Keep a collar and name tag on your animal, even an indoor cat. If your home is damaged, they may easily escape. Be sure the ID tag has a current phone number. Another tip — exchange pet information and a house key with a trusted neighbor or nearby friend. If you are not home when disaster strikes, they can evacuate your pet for you.

Keep an emergency kit for your pet. A supply of food and a can opener if you use canned food. Extra water. A replacement supply of medication if your pet takes any. Put a picture of you and your pet in the kit so you can prove ownership of your buddy. Extra pictures of your pet in case you need to make "lost pet" signs. Pack plastic bags for cleanup and old towels or sheets for their comfort. Treats and chew toys will make them feel better.

These are just some suggestions for the welfare of your pet. A more comprehensive list is on the Disaster Preparedness board in the main lounge.

Our next meeting will be May 16 at 2:30 PM in MPR1. John Muse will discuss criteria for assessing building damage in case of a major disaster. Is it safe to go back into your home? Find out.

Karen Clausen 714-846-0472 is always looking for new Building Stewards for the uncovered buildings. If you have not been approached by a steward in your building, there probably isn't one! Please volunteer to help.

LADIES RESTROOM AND SHOWER ROOM CLEANING SCHEDULE

Please note the ladies restroom and shower room by the gym. Cleaning schedule for the restrooms and showers are as follows, closed Monday, Tuesday, Wednesday and Friday from 8:00 - 8:45 AM for daily cleaning. On Thursdays, the restrooms and showers will be closed from 8:00 - 10:00 AM for a deep cleaning. Please use the other restrooms that are available. Showers will not be available, please make other arrangements. Please do not disturb the cleaning crew so they may complete their work in a timely manner, to open the restrooms as soon as they are done. Thank you Diane Yrisarri, Lifestyle Director, 714-536-1070.

DISASTER PREPAREDNESS COMMITTEE

Linda Rosenthal & Karen Clausen

Help yourself and your neighbors by being prepared and ready for a disaster. Even though we have a strong network of volunteers we still are in need of Building Stewards. Building Stewards hold a very important position towards our community's success and readiness during and after a disaster. They pass out safety literature, identify residents who might need extra help during and after a disaster and check on all residents in their building. Please call, sign up today. Be a part of something necessary, worthwhile and lifesaving. Call Karen Clausen 714-846-0472 to volunteer for your building and to get more information. Thank you.

MEDICATION DISPOSAL

Sylvia Widmeyer

Once again the Huntington Beach Police Department will be at Landmark on Wednesday, June 8 from 10:00 to 11:30 AM in MPR1 for the purpose of collecting unused/expired medications.

The medications are to be removed from their original bottles and dumped together into a ziploc bag. No Liquids, syringes, needles, or inhalers will be accepted. Never discard medications by flushing them down the drain. When disposing of them in the trash place the medications in a ziploc bag mixed with coffee grounds, kitty litter or egg shells, etc.

If you are unable to make this date and time, know that the Huntington Police Department is still collecting expired/unused medications at their 2000 Main Street location.

Once again to help the "Dog Days" organizers we will also be collecting the empty medicine bottles.

Either remove the labels or use a marker to cross thru your personal information. Please bring them in a plastic grocery bag.

ACCESS CONTROL - FRIENDLY REMINDER

Management Office

Rules and Regulations, Access Control, page 8, #4, states: Persons walking or bicycling through the gate must be prepared to present proper identification to obtain entrance.

We take your safety very seriously and to help insure that only those persons on property are individuals that are allowed to be here. So please, know that when Nordic asks for your ID when entering Landmark by foot or bicycling, it's only for the safety of you and your community. Thank you for your understanding and compliance in this matter.

ABOUT TOWN

By Linda Lucchesi

HILBERT MUSEUM

This month, we are headed for Old Towne Orange where a wonderful, new art museum opened recently. The Hilbert Museum (hilbertmuseum.org) is located at 167 N. Atchison St. across from the train station. I visited the first week it opened and it was love at first sight. This is the first museum in the nation to exhibit California Scene Painting exclusively. This narrative form of painting gives us a glimpse of everyday life in California from roughly the 1920s- 1970s. It takes us through the aftermath of the Great Depression, the urbanization and industrialization of the State, and the growth of the Hollywood movie industry. Many of the artists such as Millard Sheets, Phil Dike, William Jeckel, and Jack Laycox may be familiar to you. Some of their works have been exhibited at the Irvine Museum. There are also little known but talented artists displayed. Many worked in the movie studios or taught at local art schools while they did their own painting on the side.

Mark and Janet Hilbert generously donated 500 artworks from their collection to Chapman University as well as three million dollars toward the development of the museum. Eventually, the larger Villa Park Orchards packing house will be renovated into a space that will display the entire collection. Currently, there are 104 paintings on display. The museum, open Tuesday-Saturday, is free and there is a free parking lot in front of the museum. If the lot is full, you can get a parking pass at the desk. There are currently no docents. If you would like a docent tour for your group, you can call in advance to make arrangements. The website has hours, directions, and shows some of the artworks.

If you decide to have lunch while you are in Orange, there is a Ruby's Diner across from the museum. There are also 38 other places to eat within a mile of the Old Towne circle. I recommend leaving your car at the museum and walking instead of

battling for a parking space at the circle. Watson's Soda Fountain and Café reopened recently after a change of ownership and major renovation. This iconic local landmark originally opened as Watson's drugstore in 1899. It is one of Orange County's oldest businesses. Watson's was known for its old-fashioned drugstore ambiance and comfort food such as hamburgers and milkshakes. The new look is more contemporary and the menu is eclectic. They still serve their famous hamburgers and milkshakes but now, some of the milkshakes contain alcohol. If you like antiques, it's a great place to browse after lunch. There are several antique and collectable stores in and around the circle.

If you have followed Huell Howser up and down the California coast, you may be interested in visiting the California's Gold exhibit located at 1 University Drive, Orange at Chapman University. The Huell Howser archive is located at the basement level of Leatherby Libraries. The archive contains images, texts, and artifacts detailing Huell Howser's career and his impact on California. This free exhibit is open to the public Tuesday through Saturday from 10:00 AM -5:00 PM Go to chapman.edu/library for directions and parking information.

COMPOSITION IN VERSE WARREN, THE WANDERING SEAL

Based on a true story

For Warren, the California seal,
Living in his ocean home
Did not hold much appeal.
"It is boring," he thought.
Swimming to and fro,
And diving high and low.
So, one day, he left his ocean world,
And search for a change of scenery.
He headed for a place, which had more greenery.
And waddled up the beach,
Wandering and searching for a place with more.
Toward a place that was far beyond his reach.
He wandered and searched day and night.
Struggling to his destination with all his might.
And one hundred miles later,
At last, Warren finally found Farmer Brown's farm.
The farmer declared, "It's a seal. I can't believe it.
And what's more, he's free from harm.
Great. He'll make a fine addition to my farm."
And so, Warren lives there today.
Frolicking and jumping in Farmer Brown's hay.

COOKING WITH CATHY

Cathy Price

Real Strawberry Cake

I like to bake so, I asked Diane which cake - strawberry or chocolate? She chose strawberry, for Spring.

My daughter was due at Christmas. I didn't want her to lose her birthday in the middle of the Christmas season. Since I had to have a C-section anyway, we scheduled her for two weeks early. That was also my husband's birthday. So, what do you do for a birthday cake for a grown man and a little girl? Strawberry cake became their tradition.

My sister makes fun of me for never making a recipe according to the instructions. But cake mixes are made for changing up. Take a basic white or vanilla cake mix. If you add frozen strawberries, it tastes so much better than a strawberry flavored cake mix. You can slice fresh strawberries, add sugar and freeze or make it easy on yourself and buy the kind in the plastic containers in the frozen fruit section of the grocery store. When defrosted, the sugar and juice from the berries form syrup. The berries will keep the cake moist.

In the early days, I just made a simple cake in a 12x9 glass baking dish, left it in the dish and iced the top. I decorated each half appropriately for husband/daughter. Over time, I became more creative. If you want fancy, make a layer cake with sliced fruit in the middle. For kids, make a bundt cake, frost and fill the hole with gummies or candied fruit. For my guys at work, I make cupcakes.

I hear it all the time from guys. They say they don't like cream cheese. But every time I cook with it, they rave about the flavor. I was privileged to make my daughter's wedding cake in January. She chose to have strawberry cake

for her bride's cake. All the men said that they didn't like cream cheese frosting. So... I made the frosting with cream cheese. Of course they loved it. I didn't tell them there was cream cheese in it. The tartness of the strawberries offset or set off the flavor. You can use half butter, half cream cheese if you are worried.

Ingredients:

Cake

1 Box Vanilla or White cake mix

3/4 cup Frozen/defrosted strawberries

1/2 cup water

1/2 cup oil

3 eggs

Frosting

1 lb Powdered sugar

4 oz Cream Cheese (room temperature)

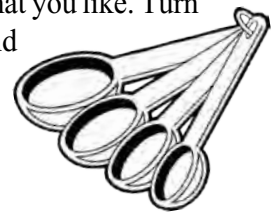

3 tbl Frozen/defrosted strawberries.

Mix together cake ingredients

in big bowl. Sometimes I puree the strawberries in the blender so the strawberries don't get stuck to the beaters. Other times I like the texture the berry pieces add to the cake. Pour into greased and floured baking pan of choice. Bake in preheated oven 350° for 25 minutes. Remove from oven and let cool completely. In a small bowl, whip together frosting ingredients. Start on slow speed, so the powdered sugar doesn't fly everywhere. Add additional strawberry juice until frosting is consistency that you like. Turn cake onto serving platter, frost and decorate.

Be creative. Cooking is fun.

VETERANS DAY IS COMING

Pete Jantz

I believe there will be an eventful celebration for our Veterans, and their significant others, on Friday, November 11 so save the date.

The next question is who will be our speaker. The sug-

gestion has been made that several of our own Landmark veterans, male or female, take about five minutes each to tell us about their experiences as a veteran.

Good idea, but who will they be? Please call me, Pete Jantz 714-536-5044, if you have a story to tell or if you know Landmark veterans who are reluctant to talk about their experiences. Send me their name and phone number and I'll call them. My email is jantzpete@gmail.com.

Let's work together to make VETERANS DAY one that we'll all remember.

YELLOW MEANS CAUTION

Have you seen the new yellow flags with the coyote silhouette on them? Our own Alice Roberts, sewer, crafter and creative resident along with Tom Gill of the recyclers have taken the reigns and brought to Landmark new flags. Alice designed and sewed the new flags to alert the community of

Coyote sightings, replacing the old worn out green flags. She fashioned the flags out of durable kite fabric and embellished the flag with a large howling coyote. The flag is weighted down with a fishing weight to avoid it wrapping around the pole during windy days. Thank you Tom Gill and thank you Alice Roberts for your creativity on these great flags.

CREATIVE WORD GATHERERS

PEACE IN THE POOL

I closed my eyes and there it was
It was a shady pool
Of clear and crystalline water
And purple, white anemones
There I felt its presence
It was the missed peace
The calm and the silent
And a pure and tranquil love
That penetrated everything
I found it there, in the quiet,
Far from the constant change
In the dark and warm bottom
Where the words are born

MAT MAKERS

B.J. O'Rourke & Sylvia Widmeyer (Co-chairs)

Members of the Monday Mat Makers, BJ O'Rourke and Debb Clay, recently visited the Long Beach VA Community Resource and Referral Center (VA's CRRC). At that time they delivered 15 "Compassionate Carpets" or mats. These are 3 x 6 ft mats that are created by the Monday Mat Makers (meeting Mondays in the art room from 2:00 - 4:00 PM). These mats are time consuming and labor intensive - taking 600+ bags to make one mat, it can take the bag processors and knitters/crocheters upwards of 50-60 hours to make one mat - but they provide a former soldier with warmth and a cushioned area to sleep. The VA's CRRC is an amazing place providing a multitude of services to our homeless veterans and their service animals. In addition to medical exams and prescription medications, the center assists veterans in finding jobs and housing. They have a 24/7 hot line for veterans needing assistance. Their goal is to eliminate homelessness. So our goal as mat makers is to aid in the transition with providing a little comfort along the way. Using the clean used

plastic bags from Von's, Ralph's, Stater Bros, Smart & Final, Sprouts, Home Depot, Target, Walmart, etc. the mats that are made are quite colorful and each unique in design. Remember to drop your donations in the blue garbage can outside the wood shop – not in the newspaper recycling bins. At this time we would like to make a request. When donating the bags, please leave them as flat as you can. When they are rolled into balls, tied into knots, or folded into triangles it takes much longer to flatten and smooth them out to work with. We cannot use them if they are soiled or wet. The donations have been phenomenal and we thank each of you for helping with this project. We welcome anyone to join us on Mondays. If you are unable to come to us, we would gladly bring the supplies to you so you can work on these mats at home. Just give BJ a call at 714-960-5241

NEEDLECRAFT
